DETAILED ACTION

Claims 49-66 are pending in this application.

Restriction Requirement

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 49 and 50, drawn to a cosmetic composition, classified in class 424, subclass 401.
- II. Claims 51-55, drawn to water-in-oil emulsion, classified in class 514, subclass 937.
- III. Claims 56-59, drawn to eyeliner, classified in class 424, subclass 63.
- IV. Claims 60-62, drawn to mascara, classified in class 424, subclass 70.7.
- V. Claims 63 and 64, drawn to a lotion, classified in class 514, subclass 846.
- VI. Claims 65 and 66, drawn to a lipstick, classified in class 424, subclass 64.

The inventions are distinct, each from the other because:

Inventions I and II, III, IV, V, and VI are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because cosmetic composition could be a sunscreen or deodorant product. The subcombination has separate utility such as an emulsion, eyeliner, mascara, lotion or lipstick.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Conclusion

Claims 49-66 are under restriction requirement.
